Ela Slota

Global PSSL Secretary

## **Workstream Progress**

The overall objective of the 'Global Engagement, Governance and Stewardship' workstream is to focus on fostering an excellent relationship between fund managers and securities lending experts, and critical matters relating to sustainable finance governance and stewardship globally.

The first meeting of the workstream took place on 17th February 2021. It explored that objective more in detail and the participants noticed various complexities in the whole sustainable securities lending value chain. The Chair emphasised the importance of good governance and transparency as overarching components of sustainable securities lending.

The Group decided to work on an output that will clarify the roles and responsibilities of the key stakeholders in the securities lending value chain. This output will be put forward for consultation in due course.

Roelof van der Struik (Workstream Chair)

Dr Radek Stech (Global PSSL CEO)
